(Premium Logistic Solutions LLC)

What is Logistics?

The overall process of managing how resources are acquired, stored and transported to their final destination.

Who is a Shipper?

- Shipper is a person who owns or oversees goods or products for transport from one location to another.
- Shippers are responsible for preparing shipments for carriers to transport their goods.

Who is a Broker?

- Broker is a person or an organization that assists shippers in moving shipments from the point of origin to their destinations by employing the service of carrier companies.
- In essence, the broker helps the shipper to find carriers for the transportation of goods.

Who is a Dispatcher?

- Dispatcher is a professional responsible for coordinating product transportation for companies.
- They partner with other logistics operators, shipping businesses and truck operators to transport their shipments in the best conditions.
- A dispatcher is a communications worker who receives and transmits information to coordinate operations of the personnel and vehicles carrying out service.

What is the difference between Broker & Dispatcher?

- Brokers work for shippers while dispatchers work for carriers.
- Brokers focus on finding the best rates and services for their clients while dispatchers focus on managing the transportation process and ensuring timely delivery.

Who is a Carrier?

Carrier refers to an individual or company that carries, holds or transports goods from one location to the other.

What do we do?

- We help carriers to find top paying freight loads for their trucks.
- Our dispatcher negotiates the highest rates and informs the carrier of options to make a final decision.
- We provide carriers the tools to keep their trucks loaded and profitable.
- Dispatcher is a single point of contact. Dispatcher knows the carrier's transportation business & always looks out for the carrier's business best interest.

What are those 02 categories of Drivers?

There are two types of drivers:

- Solo Drivers who complete a trip alone i.e 11 hours/ 600 miles a day.
- Team Driver will finish the journey with the help of at least the other driver.
- The motto of the team drivers is to keep the truck in motion at all times so they can finish as quickly as possible.

Notes:

- A driver is allowed to drive a maximum of 11 hours in a day. A driver cannot drive after he has been on duty for 14 straight hours.
- 11 hours of driving + any time spent loading & unloading + sitting in traffic or breaks.
- A driver must go on break for 10 hours after 11/14 hours driving time.
- After 08 hours consecutive hours of driving, truck drivers must take 30 minutes of break.
- 07 days ----> 60 hours drive ----> 34 hours break
- 08 days ----> 70 hours drive ----> 34 or more consecutive hours break.

What documents a driver must have?

CDL (Commercial Driving License) and truck & trailers numbers.

- Class A CDL:

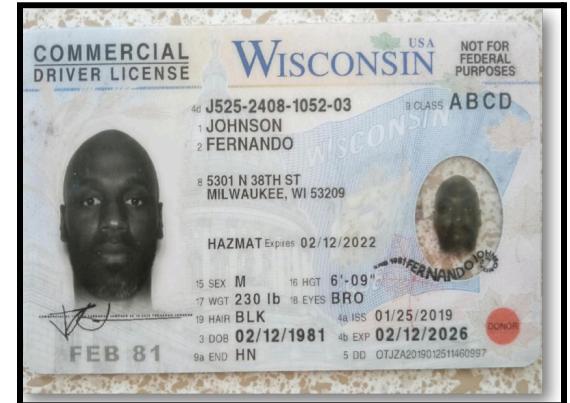

Appropriate for vehicles that weigh no more than 13 tons.

- Class B CDL

Required for heavier vehicles

- Class C CDL

What is an Electronic Logging Device (ELD)?

This device synchronizes with a vehicle engine to automatically record driving time, for easier and more accurate hours of service recording.

What are the Load options?

Load out:

- A loadout is when the company that agrees to move your trailer loads out with goods for the move.
- In a loadout, the company moving your asset will still get paid per mile and have a return timeline but the agreement includes the understanding that they can use the trailer during the trip.
- A loadout move is when a carrier picks up a trailer and puts a load in it. The carrier has 07 to 10 days to deliver the trailer.

Freight Guard Carrier's worst nightmare:

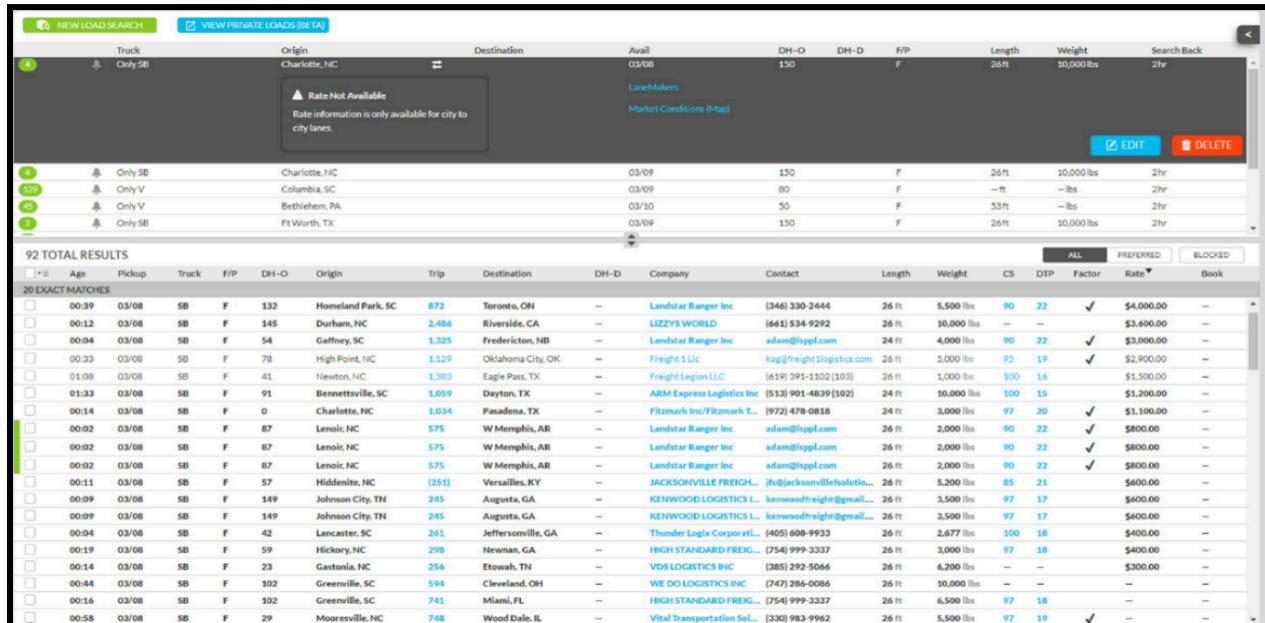

This is when the carrier cancels the load at the last moment. i.e, the pickup time was 2 pm and the carrier canceled it at 1:45 pm.

If the Loadout trailer isn't returned to its designated place at its designated time. As a result of this, the carrier's MC will be hit, Carrier won't be able to book any loads for at least 90 days with any broker.

Certificate holder

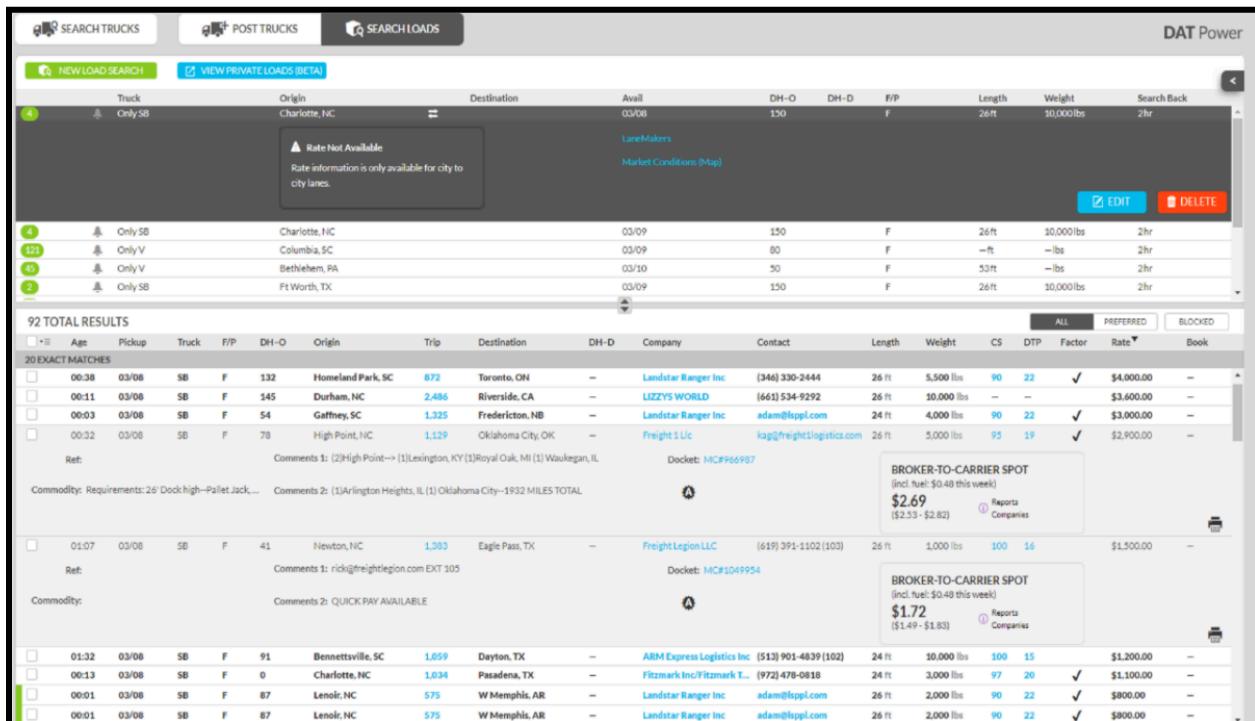

This is when the broker asks to be added to the COI, in case the commodity gets damaged. This is done one time only. Once the broker is set up then it's good to go. we don't have to set them up everytime.
